ELLURI BHARGAVI

bhargavielluri2301@gmail.com| Hyderabad | linkedin.com/in/bhargavielluri | github.com/elluri23

PROFESSIONAL SUMMARY

Detail-oriented with MBA in Finance .Proficient in data cleaning, exploratory data analysis (EDA), KPI reporting, and data visualization using Python, SQL, and Power BI. Solid foundation in statistics, machine learning, and business intelligence. Experienced in building interactive dashboards and translating data into actionable insights for stakeholder reporting and data-driven decision-making.

TECHNICAL SKILLS

SQL (MySQL): CRUD Operations, Joins, Subqueries, CTEs, Views, Aggregate & Window Functions, Stored Procedures
Python: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn (Regression, Classification, Model Evaluation)
Power BI: Power Query, DAX, Data Modelling, Interactive Dashboards, KPI Reporting, Slicers, Drill-through, Data Visualization
Statistics: Descriptive & Inferential Statistics, Probability Distributions, Hypothesis Testing
MS Excel: VLOOKUP, XLOOKUP, Pivot Tables & Charts, IF, COUNTIFS, SUMIFS
Business Intelligence: KPI Development, Trend Analysis, Financial Reporting, Stakeholder Reporting
Tools: Jupyter Notebook, VS Code, MySQL Workbench
Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Business Communication

TECHNICAL PROJECTS

Rental Price Transparency Analysis – Hyderabad | *Tools: Python, Pandas, Seaborn*

- Scraped and analysed 1,200+ rental listings; performed data cleaning and EDA to uncover pricing trends across localities and BHK categories.
- Applied statistical techniques (distribution analysis, correlation) to identify rent-driving factors, deposit variations, and Owner vs. Dealer price differences.
- Delivered actionable insights and data visualization reports on affordability patterns enabling data-driven comparison across 1, 2, and 3 BHK properties.

Employee Management System | *Tools: SQL (MySQL)*

- Constructed 15+ complex SQL queries (JOINs, GROUP BY, Aggregations, Subqueries) to generate structured HR reports for stakeholder reporting.
- Analysed salary distribution and departmental performance metrics, enabling data-driven HR insights and decision-making.

Finance Performance Dashboard | *Tools: Power BI*

- Designed an interactive dashboard analysing 5,000+ financial records, tracking revenue, expenses, and profitability KPIs across 3 key financial statements.
- Built 10+ dynamic data visualizations using DAX formulas to calculate growth rates and profit margins; supported business intelligence reporting.

WORK EXPERIENCE

Data Science Trainee – Innomatics Research Labs 2025 – Present

Hands-on industry training | Python, SQL, Statistics, Power BI, Machine Learning

- Completed hands-on projects in Python, SQL, statistics, Power BI, and machine learning fundamentals using real-world datasets.
- Performed exploratory data analysis (EDA), model evaluation, and interactive dashboard development for business intelligence use cases.
- Built foundation in supervised machine learning (regression, classification) and data-driven decision-making for reporting workflows.

EDUCATION

MBA – Finance | Nobel Post Graduate College 2023 – 2025 | CGPA: 9.15
B.Com (General) | Jagruthi Women College 2020 – 2023 | CGPA: 8.90

CERTIFICATIONS

Power BI Data Analytics – Innomatics Research Labs | 2025
Python for Data Analysis – Innomatics Research Labs | 2026
Exploratory Data Analysis (EDA) – Innomatics Research Labs | 2026
