# Sharath Kumar Morangapalli Data Analyst

.....@gmail.com ..... .....

## SUMMARY

Analytical and detail-oriented Data Science student with a strong foundation in Python, SQL, and Power BI. Proven ability to derive actionable insights through statistical validation and interactive dashboarding. Eager to leverage technical expertise to solve complex business problems as a Data Analyst.

## EDUCATION

**New Govt Degree College - Khairatabad** 07/2022 – 06/2025
*Bsc.MSDS[Mathematics, Statistics and Data Science]* Hyderabad

## COURSES

**Data Science** 08/2025
*Innomatics Research Labs* Dilsukhnagar

## SKILLS

**Python**
Pandas, NumPy, Matplotlib, Seaborn, Data Manipulation, Data Cleaning.

**Advanced Statistics**
Descriptive Statistics, Probability Distribution, Data Gathering Techniques, Inferential Statistics, Hypothesis Testing.

**MySQL**
Database Design & Schema Management, RDBMS, Data Exploration and Data Filtering, Commands, Constraints, Clauses, Joins, ACID.

**Power BI**
DAX, Power Query, Data Modeling (Power Pivot), RLS, and Interactive Dashboard Design.

## PROJECTS

**1. Laptop Pricing & Brand Identity Analysis (EDA)**
- **Action:** Automated the extraction of 500+ laptop listings using **Python & Selenium** and performed statistical validation via **One-Way ANOVA**.
- **Key Finding:** Discovered that brand prestige (Apple/Microsoft) accounts for a price premium of up to **1.57L**, showing a higher correlation with price than certain physical hardware specs.

**2. Customer Churn Analysis (Power BI)**
- **Action:** Processed raw data using Power Query and engineered interactive dashboards with **DAX** to track retention KPIs.
- **Key Finding:** Pinpointed "Contract Type" and "Tenure" as the highest risk factors for churn, enabling data-driven targeting for customer retention strategies.

**3. Employee Management System (MySQL)**
- **Action:** Designed and optimized a relational database schema using **MySQL** with complex **JOINs**, subqueries, and aggregate functions.
- **Key Finding:** Streamlined payroll and attendance reporting by creating optimized views, reducing the time required to generate department-wise performance insights.

## CERTIFICATES

- Python from Innomatics Research Labs
- Exploratory Data Analysis from Innomatics
- Power BI from Innomatics Research Labs
- SQL from Innomatics Research Labs

## LANGUAGES

- English
- Telugu
