Education

Data Science Program, *Innomatics Research Labs, Hyderabad* 09/2025 – Present

B.Tech in CSE (AI & ML), *Gitam University, Hyderabad* 2021 – 2025

Technical Skills

Gen AI
LLMs, Prompt Engineering, LangChain, OpenAI API, Hugging Face,RAG, Fine Tuning

Machine Learning
Classification, Regression,Evaluation Metrics, NLP, Data Preprocessing

Visualization
Matplotlib, Seaborn, Power BI

Deep Learning
Neural Networks, ANN, RNN, LSTM, BiLSTM, TensorFlow, Keras, NLP, Model Evaluation

Programming & Frameworks
Python, SQL, Pandas, NumPy, Scikit-learn,TensorFlow

Tools & Platforms
Jupyter Notebook, Google Colab, VS Code

Projects

Education Tutor Chatbot using workflows
• Developed an AI-powered educational assistant using Python, Streamlit, LangChain, and OpenAI for personalized learning, notes summarization, and interview preparation.
• Built LLM-powered LangChain workflows to generate topic explanations, quizzes, flashcards, interview Q&A, learning roadmaps, and study notes.
• Designed an interactive Streamlit application with modular AI pipelines for real-time educational assistance.
Tech Stack: Python, LangChain, OpenAI, Streamlit, Prompt Engineering, Generative AI, Git, GitHub.

Zomi – AI-Powered Zomato Food Assistant
• Developed an AI-powered chatbot using LangChain, OpenAI GPT-4o Mini, Python, and Streamlit to provide restaurant and cuisine recommendations.
• Implemented prompt engineering and ConversationBufferMemory to enable context-aware, multi-turn conversations with personalized responses.
• Built an interactive Streamlit application with real-time chat capabilities and seamless OpenAI API integration.
Tech Stack: Python, LangChain, OpenAI GPT-4o Mini, Streamlit, Prompt Engineering, Generative AI, Git, GitHub.

IMDB Movie Review Sentiment Analysis
• Developed an LSTM-based Sentiment Analysis system to classify IMDB movie reviews as Positive or Negative using deep learning.
• Built an end-to-end NLP pipeline including text preprocessing, stopword removal, tokenization, sequence padding, and sentiment prediction.
• Trained and evaluated the model using TensorFlow/Keras, and deployed an interactive Streamlit application with real-time predictions and confidence score visualization.
• Deployed the application on Hugging Face for online access and seamless user interaction.
Tech Stack: Python, TensorFlow, Keras, NLP,LSTM, Streamlit, Hugging Face, NumPy

Certifications

Python | Machine Learning | EDA | Power BI | SQL — Certification at Innomatics Research Labs
