Y. SAI HARSHITH

Data Scientist

Hyderabad, India | tghnjklvg@gmail.com | +91 7523641256 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Data Science enthusiast with strong analytical skills in Python, SQL, EDA, Power BI, and Machine Learning fundamentals. Currently working as a Software Developer with 2+ years of experience building responsive and interactive web applications using HTML5, CSS3, JavaScript and React.js. Proficient in component-based architecture, API integration, state management, and performance optimization. Passionate about applying data-driven insights and technical expertise to solve business problems and build impactful solutions.

TECHNICAL SKILLS

Programming Languages	JavaScript, Python, SQL
Data Analytics	Exploratory Data Analysis (EDA) , Power BI
AI/ML	Machine Learning , Deep Learning, NLP , Generative AI
Front-End	React.js
CSS Frameworks	Bootstrap , Tailwind CSS
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook, Streamlit
Other	REST API Integration, SPA Development, Performance Optimization

PROFESSIONAL EXPERIENCE

Front-End Web Development (React.js) Intern | Digital Edify *Apr 2025 – Jun 2025*

- Developed interactive UI components using React.js, Tailwind CSS, and JavaScript, improving user experience across single-page applications.
- Built reusable and dynamic React components using Hooks (useState, useEffect, useContext), reducing code duplication.
- Integrated RESTful APIs using Axios for efficient data fetching and state updates.
- Implemented client-side routing and navigation using React Router DOM.
- Implemented form validation and complex form workflows using React Hook Form.
- Optimized React component performance by leveraging memoization and lazy loading techniques.
- Collaborated with team members via GitHub (branching, pull requests) and participated in daily stand-ups.

UI Designer & Angular Developer | Orchasp Limited *Jul 2023 – Jan 2025*

Project: Freight Operations Information System (FOIS) — CRIS | Technologies: HTML, CSS, Bootstrap, Angular, TypeScript

- Played a key role in designing and building the UI for FOIS, a large-scale freight tracking system managing wagons, locomotives, crew, and network operations.
- Developed and maintained Angular applications using TypeScript, HTML, CSS, and Bootstrap.
- Integrated UI elements including forms and interactive features into the Angular application.
- Implemented authentication and authorization workflows using JSON-based token management.
- Applied style rules and design guidelines to ensure consistent, compliant UI across modules.
- Provided technical support and troubleshooting for end-user issues within the application.
- Participated in team meetings to review upcoming tasks, plan sprints, and meet delivery deadlines.

PROJECTS

Customer Churn Analysis Dashboard – Power BI

- Created an interactive dashboard to analyze customer churn, retention, and customer segments.
- Developed KPIs, charts, slicers, and DAX measures to identify churn patterns.

Myntra Men's Formal Shirts Analysis – EDA

- Collected and analyzed Myntra men's formal shirt data using web scraping, data cleaning, and exploratory data analysis (EDA).
- Performed statistical analysis and generated business insights from product pricing, ratings, brands, and other product attributes.

Employee Management System – SQL

- Developed a relational Employee Management System to manage employee details, job roles, payroll, qualifications, and leave records using SQL.
- Designed normalized tables and implemented Joins, Subqueries, Aggregate Functions, Views, and Stored Procedures to ensure data accuracy and generate HR reports.

EDUCATION

Bachelor of Technology in Computer Science *Aug 2016 – Oct 2020*

CVR College of Engineering, Hyderabad

CERTIFICATIONS

- Front-End Web Development (React.js) — Digital Edify | Aug 2024 – Nov 2024
- Internship Certificate in Front-End Web Development (React.js) — Digital Edify | Apr 2025 – Jun 2025
- Python – Innomatics Research Labs
- Power BI – Innomatics Research Labs
- Exploratory Data Analytics – Innomatics Research Labs
- SQL – Innomatics Research Labs
