VALLABH KULKARNI

Hyderabad, Telangana | 96******54 | k**********8@gmail.com | linkedin.com/in/vallabh-kulkarni008 | github.com/Vallu220f

PROFESSIONAL SUMMARY

Data-focused MCA graduate with hands-on experience in data preprocessing, exploratory data analysis, visualization, and predictive modeling using Python, SQL, Pandas, NumPy, Scikit-learn, Matplotlib, and Power BI. Completed a Data Science internship building and evaluating ML models, and a Deloitte job simulation in data analysis and forensic technology. Strong foundation in DBMS, data structures and algorithms, with working knowledge of NLP, LLMs, and RAG. Seeking an entry-level data analyst role to turn data into actionable insights.

TECHNICAL SKILLS

- **Data Analysis & Visualization:** EDA, Data Preprocessing, Data Cleaning, Web Scraping, Data Visualization (Power BI, Matplotlib), Predictive Modeling
- **Programming & Databases:** Python, SQL (MySQL), C, C++, Java
- **Data Science Libraries:** NumPy, Pandas, Scikit-learn, Matplotlib
- **Machine Learning & AI:** Machine Learning, NLP, Sentiment Analysis, Generative AI, LLM, RAG
- **CS Fundamentals:** DBMS, Data Structures & Algorithms, OOP, Operating Systems
- **Tools & Platforms:** Power BI, Anaconda, Jupyter Notebook, Google Colab, GitHub
- **Web Development:** HTML, CSS, JavaScript, PHP

WORK EXPERIENCE

Data Science Intern — Jan 2025 – Jul 2025

Ctronics Info Tech — *Amravati, India*

- Performed data preprocessing, exploratory data analysis (EDA), and visualization using Pandas, NumPy, and Matplotlib.
- Built and evaluated machine learning models with Scikit-learn to derive insights and support data-driven decision-making.
- Collaborated within an Agile team across design, coding, testing, and deployment; optimized performance via debugging and cross-browser testing.

PROJECTS

Movie Sales Analysis (Power BI)

- Built an interactive Power BI dashboard to analyze movie sales and revenue trends and surface key business insights.
- **Techniques Used:** Interactive Dashboard Design, Revenue & Trend Analysis

Swiggy Delivery Time Prediction (Machine Learning)

- Built and evaluated a machine learning model in Python to predict food delivery times from order and delivery-related factors.
- **Techniques Used:** Feature Engineering, Linear Regression, Decision Tree, Random Forest Regressor, Gradient Boosting / XGBoost, Model Evaluation (R^2, MAE, RMSE)

Heart Disease Prediction (Deep Learning / ANN)

- Built an Artificial Neural Network (ANN) to predict the presence of heart disease from patient health parameters.
- **Techniques Used:** Artificial Neural Network (ANN), Deep Learning, Binary Classification

Sentiment Analysis of Amazon Reviews (NLP)

- Applied NLP to clean and classify Amazon customer reviews by sentiment, extracting insights on customer opinions.
- **Techniques Used:** Text Cleaning (Tokenization, Stopword Removal, Lemmatization), TF-IDF / Bag of Words, Model Evaluation (Accuracy, Precision, Recall, F1-score)

AI Fitness Chatbot (Generative AI)

- Developed a GenAI-powered chatbot that delivers personalized fitness and workout guidance through conversational prompts.
- **Techniques Used:** LLM API Integration, Prompt Engineering, Chatbot Web Interface

EDUCATION

Data Science with GenAI — Dec 2025 – Present

Innomatics Research Labs — *Hyderabad, India*

Master of Computer Applications (MCA) — 2023 – 2025

Degree College of Physical Education, HVPM — *Amravati, Maharashtra*

Bachelor of Computer Applications (BCA) — 2020 – 2023

MGM College of Computer Science and IT — *Nanded, Maharashtra*

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (via Forage), June 2026
- Python for Data Science — Infosys Springboard
- Python Fundamentals — Infosys Springboard
