KALAGOTLA SHAHINA

EDUCATION

Innomatics Research Science 06/2025 – 03/2026
Data Science, Gen AI Hyderabad

Vignan Lara Institute of Technology and Science 12/2021 – 04/2025
Electronics and Communication Engineering Guntur,India

SKILLS

PYTHON
- Python: Anaconda, Jupyter Notebook, Colab Notebook, syntax,
- Identifiers & Operators, Array,NumPy, Data Manipulation, Pandas

Power BI
- Power BI workflow, Visualization, Trend Data viz, Power Query, Power Pivot, DAX, DAX Expression, Web & RLS, Visual Interactions, Drill Through.

Manchine Learning
- Supervised, Unsupervised, ML Algorithms, Validation Methods, Naive Bayes, Linear Algebra, K-NN, Hyperparameters, Dimensionality,
- Decision Tree, Linear regression, Evaluation Metrics, Regression Techniques, Q-Q Plot, MSE & RMSE, Polynomial regression, Regularization Techniques, Logistic Regression, Hierarchical Clustering.

SQL + Power BI
- MySQL, NOSQL,CRUD Operations, RDBMS, Data Exploration and Data
- Filtering, DQL and Operators, Clauses, Joins, ACID, COMMIT ROLLBACK.

Advanced Statistics
- Descriptive Statistics, Probability Distribution, Data Gathering Techniques, Inferential Statistics.

EDA
- Data Profiling, Data Cleaning,Missing Value &Outlier Handling,Descriptive Statistics, Univariate–Bivariate–Multivariate Analysis,Correlation Analysis,Feature Understanding, DataTransformation, Pattern & Trend Identification, Insight Generation.

CNN & Computer Vision GEN AI
- Open CV, Convolutional, TransferLearing, Object Detection, YOLO Large Language Models, OpenAI, DALL-E, GPT-3/GPT-4, Gemini,LLaMA, LangChain

PROJECTS

1.Global EV Data Analysis – IEA (2024)
Global EV Market Analysis and Interactive Dashboard Development
- Collected and analyzed global electric vehicle (EV) data from IEA datasets.
- Cleaned and transformed raw data using **Power Query** to improve accuracy.
- Built interactive dashboards in **Power BI** to show EV sales by region, year, and vehicle type.
- Used **DAX formulas** to calculate KPIs like growth rate, total sales, and adoption trends.
- Identified top-performing regions and fast-growing EV markets.
- Provided insights on sustainable transport trends and government policy impact.

2.Hotel Booking Management System
Database Design and Booking Analytics using MySQL
- Developed a MySQL-based system to manage guest details, room bookings, availability, and payment records efficiently.
- Designed normalized database tables with primary and foreign keys to maintain data integrity and reduce redundancy.
- Created SQL queries and reports to track bookings, payments, and occupancy, supporting better decision-making.

3.Flipkart Washing Machine Data Scraping & Analysis
Developed a Python web scraping pipeline using BeautifulSoup and Requests to collect washing machine product data from Flipkart. Extracted details like brand, price, ratings, reviews, discounts, and specifications for analysis. Cleaned and processed data using Pandas and performed EDA to identify pricing trends and customer preferences. Created visualizations with Matplotlib and Seaborn to generate insights with 95–98% data accuracy.
Tools: Python, BeautifulSoup, Pandas, Matplotlib, Seaborn

Hand Distance Measurement using OpenCV & MediaPipe
- Developed a hand tracking system to measure the distance between fingers in real time using computer vision.
- Designed and built a real-time system using OpenCV and MediaPipe for hand detection.
- Extracted hand landmark points to track finger positions and measure distance accurately.
- Ensured the system works smoothly in real time with good performance.

- Improved the system by handling issues like lighting conditions and camera limitations.

Swiggy Delivery Time Prediction
- Developed a machine learning model to predict food delivery time.
- Used **45,000+ delivery records** for training the model
- Cleaned and prepared the data for better results
- Built models using **Linear Regression, Decision Tree, and KNN**
- Evaluated performance using **RMSE and R^2 score**
- Achieved **good prediction accuracy (~80–85% approx.)**
- Helped improve delivery planning and customer satisfaction

CERTIFICATES

- Exploratory Data Analysis from Innomatics Research Labs
- Certification in data analysis Innomatics Research labs
- Power BI Certificate of Excellence from Innomatics Research Labs
- Certificate In Python Programming by Innomatics Research Labs
