PROFESSIONAL SUMMARY

B.Tech (AI/ML) graduate with hands-on experience building Power BI dashboards, SQL-based business analysis, Python applications, and AI/LLM solutions. Experienced in turning raw data into reports and building practical tools using Python, SQL, Flask, Streamlit, LangChain, and LLM APIs. Targeting entry-level technical roles in AI, business applications, automation, and analytics.

TECHNICAL SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Excel
Visualization: Power BI, Tableau, Matplotlib
Machine Learning: Scikit-learn, XGBoost, TensorFlow
AI / GenAI: LangChain, RAG, OpenAI API, Gemini API
Web Tools: Flask, Streamlit
Database: MySQL

INTERNSHIP

AI for Sustainability Virtual Internship — 1M1B (AICTE, IBM SkillsBuild) Jul 2026 – Sep 2026

- Completed program covering Agentic AI, RAG systems, and UN SDG-aligned sustainability concepts.

SELECTED PROJECTS

Retail Business Analytics Portfolio | *MySQL, Python, Pandas, Power BI* GitHub

- Designed SQL queries across three related datasets and validated results with Python EDA.
- Built a 3-page interactive Power BI dashboard covering sales, products, and customers.

Customer Churn Analysis | *Power BI* GitHub

- Built a Power BI report analyzing customer churn to support business insights.

Swiggy Delivery Time Prediction | *Python, XGBoost, Scikit-learn, Flask, Optuna* GitHub

- Compared six regression models using 5-fold cross-validation and tuned the final XGBoost model with Optuna.
- Deployed the Scikit-learn pipeline in a Flask app with an HTML input form and JSON REST endpoint.

AI Career & Job Matching Assistant | *Python, LangChain, OpenAI API, Streamlit, HTML/CSS* GitHub

- Built an LLM assistant for skill-gap and job description analysis with conversational memory.
- Created a customized Streamlit UI with structured prompts and fixed output constraints.

News Category Classification (NLP) | *Python, TensorFlow/Keras, LSTM* GitHub

- Built a five-class NLP text classification model using LSTM and GloVe embeddings.
- Trained the model on 25,000 articles and achieved 84.72% test accuracy.

EDUCATION

B.Tech, Computer Science and Engineering (AI/ML)
Sri Indu Institute of Engineering and Technology

CERTIFICATIONS

- SQL; Networks on Google Cloud (Infosys Springboard)
- Generative AI (LinkedIn)
- AI for Sustainability (1M1B, IBM SkillsBuild)
